

AluClip easy: profine offers colour-coated aluminum shells ex works

Since April 2017, profine GmbH has been offering colour-coated AluClip shells ex works to its manufacturers in Germany.

In the first step, AluClip shells are available in 20 colours, under the brand name "AluClip easy", for the System 76 centre seal and the lift/sliding door PremiDoor 76 of the brands KBE, Kömmerling and Trocal. In the summer, the corresponding aluminum shells for the System 76 double seal as well as for the System 88 will follow.

To date, the marketing of PVC-U windows with coated aluminum shells has been associated with very high logistical costs for many window manufacturers – due to separate ordering, trimming and delivery times.

"As part of our colour strategy, we are now offering our partners 'AluClip easy' as a helpful service to be able to take advantage of additional opportunities in the market for colour windows", explains Dr Peter Mrosik, owner and CEO of profine.
