***KBE PremiDoor 76*** Lift/sliding door system

# ***Bigger! Brighter! More comfortable!***

Fulfil your dream of bright living spaces flooded with light: With the innovative lift/sliding door system PremiDoor 76. Be it green garden or urban skyline – with PremiDoor 76 you can bring the outside world into your living environment thanks to the extensive glazed areas. This modern, barrier-free system is further enhanced by its excellent handling ease and thermal insulation. Whether new build or renovation: The PremiDoor 76 lift/sliding door system offers you the perfect solution. Get the new freedom for your home.

- » **Barrier-free thresholds realised in conformance with standards**
- » **Large installed heights and glazed areas**
- » **Greater passage of light and solar energy gains**
- » **Ease of handling when opening and closing**
- » **Sustainable, recyclable system solution of environmentally friendly, lead-free PVC-U profiles**

## Two strong variants

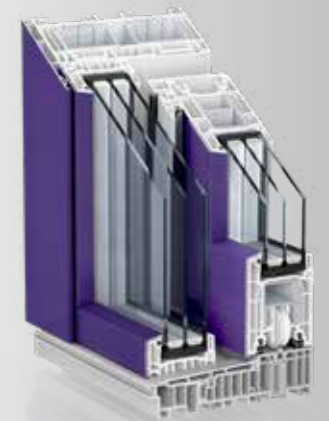

You want maximum performance for thermal and sound insulation and maximum protection against forced entry? Then PremiDoor 76 is the right choice for you. You get either the classic version of the lift/sliding door system or the PremiDoor 76 Lux architectural variant for even more passage of light. Here the sash profile can be reduced by the intelligent construction, which in turn allows an extremely slim profile and even larger glazed areas and higher solar energy gains.

### PremiDoor 76

- ✓ Maximum installation height of 2.60 m
- ✓ Glazing options up to 50 mm
- ✓ Optimal thermal insulation up to 1.4 W/(m2K) as standard
- ✓ Protection against forced entry up to RC2
- ✓ Barrier free threshold
- ✓ considerably greater passage of light through reduced sash profile

### PremiDoor 76 Lux

# Greatest possible design freedom

Realise all of your architectural ideas. PremiDoor 76 will not only inspire you with its elegant design and large glazed areas but also through the wide range of colours and materials: from classic white through high quality laminated solutions up to the premium variants proCoverTec and AluClip.

protected by colour

### proCoverTec

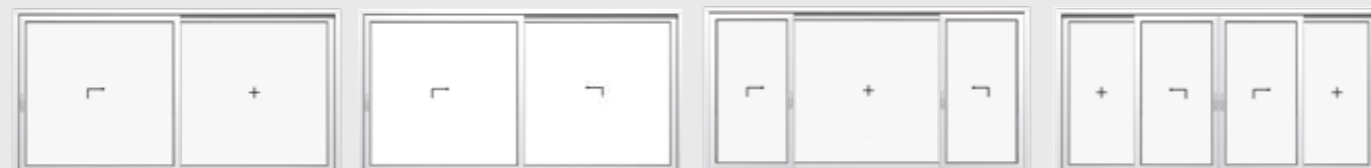

Satin look, slightly textured feel, UV and IR resistant, dirt repellent – the innovative surface technology with the perfect combination of protection and colour.

### AluClip

Easy to clean, durable, elegant, and economical – these are the advantages presented by the combination of PVC-U profile and aluminium cover. Unlimited colour and design options also available.
